

Aesthetic medicine PRP injection training April 4-5, 2020 & December 5-6, 2020 at BINM

Aesthetic PRP is a procedure of using the patient's own platelets, stem cells, growth factors and other metabolic factors extracted from their blood either on their own or in combination with other substances to enhance the healing and aesthetic appearances through various injection techniques.

Some of the areas addressed by aesthetic PRP are:

- **Facial & neck toning**
- **Body sculpturing**
- **Skin conditions & health**
- **and a host of other challenges.**
- **Wrinkles**
- **Keloids**
- **Hair issues**
- **Scars**
- **Saggy skin**
- **Breast toning & firming**
- **Stretch marks**
- **Lack of tone**

In this course we will demonstrate the various PRP injection techniques specific to the region and desired outcome. The course is 16 hours over 2 days, with 8 hours didactic and 8 hours practicum.

This course is very comprehensive with a large emphasis on the anatomy.

This course is recognized as a certification class by the CNPBC.

2-day training includes 8 hrs theory & 8 hours practical.

Course cost (includes use of PRP kits, all products used during the practicum, refreshments, lunches & TLC):
